Summary:

A Results-driven Full Stack Developer with a proven track record of building and delivering scalable, high-performing web applications, including banking systems, sports blogs, and task management platforms. As an experienced instructor, I have successfully trained aspiring developers across the UK, USA, Canada, and Nigeria, solidifying my expertise in both frontend and backend technologies. Proficient in JavaScript, React, Django, and modern frameworks, I excel at solving complex problems, optimizing performance, and delivering user-centric solutions that align with business goals.

Known for my collaborative mindset and attention to detail, I am eager to bring my skills and passion for clean, maintainable code to a forward-thinking organization to drive product success and innovation

Skills:

- **Languages:** HTML5, CSS3, JavaScript (ES6+), TypeScript, Python
- **UI/UX Tools**: Tailwind CSS, Material-UI
- **Responsive Design:** Cross-browser compatibility, Mobile-first design
- **State Management:** Context API, Redux Toolkit, API development
- **Testing:** React Testing Library
- **APIs:** RESTful APIs
- **Frameworks & Libraries:** React.js, Next.js, Django
- **Databases**: MySQL, Firebase
- **Version Control & Deployment**: Git, GitHub: Vercel, Netlify

Experience:

Frontend Developer | TechNova Solutions (Australia) | Remote
September 2023 – Present

- Designed, developed, and optimized interactive, user-centric web applications using **React.js** and modern frontend frameworks, improving page load time by **25%** and overall user experience by **30%**.
- Collaborated with cross-functional remote teams, including UI/UX designers and backend developers, to deliver scalable features that align with client requirements and project deadlines.
- Implemented **responsive design** and performance optimization strategies, ensuring seamless functionality across devices, resulting in a **20% increase in mobile engagement**.
- Migrated legacy code to modern **React-based solutions**, improving code maintainability and reducing bugs by **40%**.
- Integrated state management tools like **Redux** and the Context API to manage dynamic data efficiently.
- Enhanced component reusability and scalability by creating modular UI components, reducing development time for new features by **15%**.
- Conducted code reviews and provided mentorship to junior developers, improving code quality and boosting team productivity.
- Collaborated with QA teams to implement automated testing using **Jest** and **React Testing Library**, achieving a **98% test coverage** for critical application modules.
- Actively utilized **Git** for version control and participated in sprint planning using **Agile methodologies** to ensure on-time delivery.

Achievements:

- Achieved a **30% boost in user engagement** through intuitive UI enhancements and performance optimizations.
- Reduced load times by **25%** by implementing best practices like lazy loading and code splitting.
- Improved overall code quality by **40%** through code reviews, bug fixes, and legacy refactoring.
- Increased **mobile accessibility by 20%**, capturing a wider audience and driving growth.

Software Development Intern | Tech365 | Lagos, Nigeria
January 2021 – May 2023

- Assisted in training over **80+ students** from **USA, UK, Canada, and Nigeria** on both **Frontend** and **Backend Development**, focusing on modern tools and technologies such as **HTML5, CSS3, JavaScript, React.js, Python, and Django**.
- Designed and delivered interactive learning modules that combined practical coding tasks and real-world applications, ensuring a **90% student success rate** in acquiring development roles and internships.
- Supported students with project implementation, enabling them to build **e-commerce platforms**, **task management tools**, and other portfolio-ready projects.
- Conducted **live coding sessions**, workshops, and one-on-one mentorship to strengthen students' understanding of **RESTful APIs**, **Git version control**, and **responsive design principles**.
- Collaborated with senior developers to refactor existing software and develop reusable frontend components, improving project delivery timelines by **25%**.
- Participated in building internal training tools that optimized student onboarding and engagement, reducing drop-off rates by **20%**.
- Monitored student progress, provided constructive feedback, and facilitated pair-programming exercises that boosted their coding confidence and collaborative skills.
- Actively contributed to Agile team processes, including sprint planning, debugging sessions, and code reviews, enhancing personal development and team efficiency.

Achievements:

- Successfully trained and mentored **80+ students** across multiple countries, achieving a **78% placement rate** for tech roles and internships.
- Reduced student onboarding time by **30%** through streamlined processes and optimized training materials.
- Improved team efficiency by **25%** through refactoring code and developing reusable components for internal tools.
- Ensured over **70%** of students delivered portfolio-ready projects, showcasing their readiness for professional opportunities.

Education:

Tech365 - Diploma
Software Development, November, 2020

theIternTech - Diploma
Computer Science, January, 2018

NIPR – Nigeria Institute of Public Relations
Degree: Associate of Public Relations, 2016

Obafemi Awolowo University (OAU) - BSc
Political Science, September, 2014

Certifications:

Google Digital Skills for Africa Certificate 2017
